Associate of Arts, Computer Engineering Anticipated Graduation 2027
- **Certificates**, Google User Experience Designer December 2023

RELEVANT EXPERIENCE

Broward College - Coconut Creek, FL June 2024 – Current

Administrative Assistant

- Improved student communication workflows through user-centered design principles
- Designed digital materials for campus-wide communications
- Collaborated with faculty to improve information accessibility

Sprinkler Repair Website — UX/UI Designer & Developer June 2026 – July 2026

- Redesigned and developed a responsive website for a local service business
- Created user flows, wireframes, high-fidelity interfaces, and branding
- Improved navigation and service discovery to increase lead generation
- Built and deployed the production website using modern web technologies
- Collaborated directly with the client to translate business goals into a user-centered website experience.

Communify - Crossingz Hackathon, Remote May 2024

Lead UX Designer

- Secured **1st place** for developing an AI-powered platform that enhances meaningful social connections by matching users with similar interests
- Spearheaded the **design process**, including user research, wireframing, and prototyping to ensure a user-friendly experience
- Collaborated with team members to integrate AI functionalities, creating an intuitive interface with engaging interactive features
- Presented the project to FAANG judges and startup founders, earning recognition for innovation and impact

Neo Sapiens - Miami Hack Week, Miami, FL April 2024

UI Designer

- Earned **2nd place** at Miami Hack Week for developing an AI-powered tool using swarm intelligence to break problems into manageable, domain-specific tasks
- **Designed wireframes, prototypes, and a visual presentation**, ensuring the platform's value was clear to 200+ attendees and **venture capitalist judges** with industry expertise
- Collaborated with engineers to deliver a functional product that balanced usability, accessibility, and innovation
- Featured in *Refresh Miami* as a standout project for its potential to tackle **"tomorrow's problems"** through cutting-edge AI applications

Read2Text - Remote January 2024 - April 2024

UX Designer (Volunteer)

- Collaborated with a team to design the Read2Text platform, shaping the end-to-end user experience for students, SLPs, and reading specialists.
- Conducted user research, wireframing, and iterative prototyping to transform the platform into a data-driven, accessible fluency practice solution.
- Collaborated cross-functionally with developers and educators to build the core product, earning a Finalist position in the Backdrop Build competition for platform innovation.
- Designed key platform features—including student progress tracking and interactive reading

activities—that significantly enhanced accessibility and engagement.

LEADERSHIP EXPERIENCE

Spring Soccer Club, Coral Springs, FL

August 2023 - May 2024

Assistant Soccer Coach

- Coached a U9 boys' team, leading practices, managing games, and contributing to player development and tournament success
- Supported the academy's overall operations, assisting with training, game preparation, and event coordination across age-group teams
